

About

"K9" Academy is a family ran business and our vision is to "be the bridge" between dogs and their human families. to coach and train them to co-exist in love and harmony.

We are not a 1 size fits all training, institution. Every class, lesson and consultation is specifically geared for you and your dog.

Derek and Moira have a passion for animals and truly
"love what they do and do what they love"

Meet The Team:

Herding

Protection (vital that your dog has already achieved a minimum of a Good Citizen Bronze)

Private lessons at your home or at our training grounds.

Zoom lessons for distance training.

Behavioral Advice and Modification

Moira passionately believes that every dog and owner should have all the support they need to live in harmonious coexistence loving life together.

We all know this is easy with some dogs and then there are others that are a little more challenging!

Our team are here to help you we are the "bridge" between you and your dog when you just don't know what to do next.

Moira's particular passion is working with teenage dogs as these are the dogs that can be so frustrating and disheartening. Worldwide "problem" dogs between the age of 1 and 3 years are the dogs most likely to be rehomed or sent to an SPCA and Moira's passion is seeing owners and their dogs loving life together and living as family with each dogs specific needs being met.. Dogs are sentient beings with emotions and emotions drive behavior. All training is done with fear free and positive reinforcement methods.

Weight Loss Boot Camp

Overweight dogs are prone to health problems and live up to two years less than their lighter counterparts.

We know how difficult it is to drop weight off dogs as we have had a couple of well shall we say "chunky" dogs ourselves!!

Diet and exercise are so important and we have found that swimming is the best method to exercise as it protects their joints especially as it is in our heated hydro poo..

Dogs staying in our Dog Hotel or Day Care have structured rest, exercise and social times and we also strive to ensure that their breed specific motor patterns are met wherever possible.

Swimming fun for the Labradors and water loving dogs, long sniffy walks and nose games as well as good old fashioned play.

On request your pup or dog can also have training on any specific behaviour such as loose leash walking, recall, house manners and "settle".

Moira and her team firmly believe in the value of Sarah Fishers ACE Freework and find that the benefits are numerable.

Board and Train

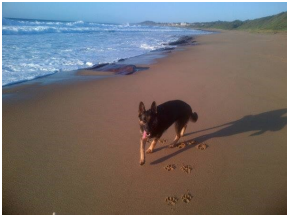

We all know that it is ideal to train your own puppy or dog but sometimes that just isn't possible.

For those that will be away at a critical stage or due to sudden work or health constraints we do also offer board and train.

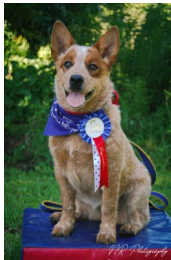

Please note that we are NOT like conventional board and train kennels where your dog is kept in a kennel and only taken out to train.

With us dogs and puppies in for boarding stay in the house with our dogs so that they learn house manners and house training their days are carefully scheduled so that they have training, exercise, rest and play time.

Much like a child at boarding school each day is carefully scheduled with your pets training plan and hedonic budget carefully planned out by our behaviorist with emphasis on ensuring that your puppy or dogs breed specific needs are being met and his/her SEEKING, PLAY and CARE primary emotional systems are being fully engaged.

The package does not end when we hand your much loved pup back to you, we help you reintroduce your pup into your home and you have a set of lessons to help you to maintain the good behaviors we have worked on. This is then followed up with WhatsApp and zoom to help fully cement the bond between you and your much loved fur baby.

Where to find us:?

Main Campus
10 Overdale Road
Rosetta
KZN Midlands

Satellite Campus
Ballito / Salt Rock
KZN North Cost
KZN
